

## Project Design Phase-I

### Solution Architecture

<b>Date</b>	5 November 2022
<b>Team ID</b>	PNT2022TMID07992
<b>Project Name</b>	NEWS TRACKER APPLICATION

### Solution Architecture:

Solution architecture is a complex process – with many sub-processes – that bridges the gap between business problems and technology solutions.

The goals are to:

- Find the best tech solution to solve existing business problems.
- Describe the structure, characteristics, behaviour, and other aspects of the software to project stakeholders.
- Define features, development phases, and solution requirements.
- Provide specifications according to which the solution is defined, managed, and delivered.
